ANVIL BRAND high speed steel tipped joiners' chisels

A Cutting Edge that will Outlast any other

This tool is the World's first High Speed Steel Tipped Joiners Chisel and marks a new step forward in the improved performance and increased life of these tools.

High Speed Steel is commonly used in industry for cutting metals and has more resistance to wear even when cutting the hardest woods than any Joiners Chisel ever previously produced.

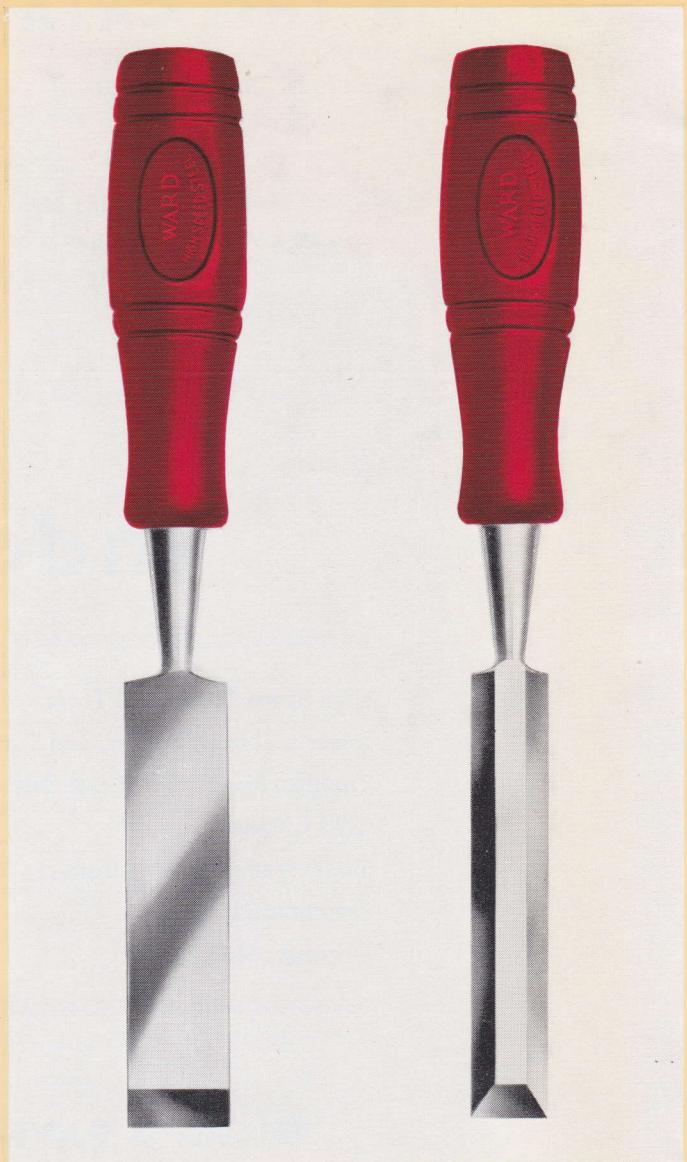

Will outlast several ordinary chisels.

Will cut without trouble: Formica, Perspex and resinous bonded woods. Standard chisels will not.

Keeps its razor sharp cutting edge far longer.

Will not lose its temper even when re-ground on a power operated grinding wheel.

Has a well designed unbreakable plastic handle pressure blown on to the shank which is double bolstered for maximum shock absorption.

British Patent No. 934,309.

Available in the following sizes:

	¼″	½″	¾″	1″	1¼″	
Plain Firmer	30/–	32/6	35/–	37/6	40/–	ea.
Bevel Edge	32/6	35/–	37/6	40/–	42/6	ea.

DESIGN CENTRE APPROVED

WARD & PAYNE LIMITED SHEFFIELD ENGLAND

HIGH SPEED STEEL TINSNIPS (Non-Nip Design) SOLID FORGED BOX JOINT

British Patents No. 964, 629.

1. Will cut Stainless Steel.
2. The blade is solid forged High Speed Steel. Easily sharpened.
3. Will outlast several ordinary Tinsnips.
4. Keeps its sharp cutting edge far longer.

Pattern No. HS 8644 straight.

8″	10″	12″	14″

HIGH SPEED STEEL PLANE IRON

made to fit Stanley, Record and similar planes.

2″	$2\frac{3}{8}$″	
21/–	**22/6**	each

These plane irons will cut without trouble, Formica, Perspex and resinous bonded woods. Standard irons will not.

ANVIL BRAND **aristocrat**

Patent No. 808614

THE "ARISTOCRAT" CHISEL

Selected as one of the 1959 Designs of the year by the Council of Industrial Design and the recipient of a National Award presented by H.R.H. The Duke of Edinburgh.

A set of four "Aristocrat" chisels were selected by the Federation of British Industries for exhibition on their Stand at the 1960 New York Industries Fair.

This Chisel is specially manufactured for both the Craftsman and the serious amateur and is acclaimed as the World's finest.

1. New Bevel to give adequate clearance and longer life.
2. The Steel Cap protects the handle.
3. All parts are precision machine ground to fine limits.
4. The Blade is Forged from the finest Sheffield Tool Steel.
5. Induction Heat Treatment, electronically controlled, ensures accurate Rockwell hardness.
6. The strong middle structure, fitted centrally into the socket, absorbs the shock of mallet blows and ensures even wear at the cutting edge.
7. Each Chisel is individually packed.
8. Tough Plastic Handle for lifelong wear.
